

MY PLACE *Gympie*

My Place Gympie

*Our next meeting is October the 1st
meeting starts @ 1pm - 3pm*

Location: The Shed, 735 Mary Valley Road, Long Flat

Please Travel slowly (5km limit) as you come and go from the property and please watch out for our chickens - they may be under your car

Please leave your dogs at home as we have two dogs on the property and at the meeting who roam freely

Thank you

Hello community,

- Welcome all to My Place Gympie
- For those who are new we give you a warm welcome from like minded men and women.
- For those on Facebook you can join our "My Place Gympie" group
- <https://www.facebook.com/groups/913221063032255/?ref=share&mibextid=S66gvF>
- Exciting news regarding our very own **website**. See Grahams Tech Tip to find out more
- We are here to **support** each other in anyway we can.
 - **Support** in education in regards to our rights as mankind God's Children, natural law, common law.
 - **Support** with sourcing food and ways that we can support our local farmers and starve out the big corporations, supermarkets.
 - **Support** in getting food without all the nasties.
 - **Support** with energy

- **Support** with medical care
- **Support** with removing ourselves from the corporate
- **WE NEED YOUR HELP** - We rely on each other to gather this information and support it. We all have something to offer which is greatly appreciated, and we all have a responsibility if we want things to change
- **Billboard Battalion.** How amazing was the event on Thursday night. Don't worry if you missed it. The event speakers were recorded and will be available on their website in 3-4 days - <https://billboardbattalion.com/> and also My Place Gympie website not long after that - <https://www.myplacegympie.org/>
- **Set Up** - Those who can come earlier to help set up that would be really appreciated. Set up time from 12.15pm. The more we have to help out the quicker it gets done. Please don't forget that we also need to pack up. Thank you
- **Market update** - Thank you to all the amazing volunteers for your contribution to the markets. Please note that we attend the duck pond markets only. **This is every 1st, 3rd and 5th Sunday of the month.**
 - As a community we endeavour to support each other and our community so in light of that we are calling out to all our members to please give some time toward supporting the markets.
 - We set up at 6.00am and will run till around 11-11.30.
 - **The next Markets at the Duck Ponds is Sunday the 1st of October**
 - Any time you are able to give will be greatly appreciated.
 - ***I will be doing up a roster and calling out for members to volunteer their time so please see Beck to put your name down on the roster.***
Thank you
- **We as the people ~ The Gympie Regional Council Watch.** The Community have been Visiting the Gympie Regional Council meetings each week which has been going well. We have had some great response and an amazing turnout.
 - **The meetings** are held monthly so make sure you mark the next one in your calendar which is on **October the 25th starting at 9 am.**
 - Meet you out the front of Chambers by 8.45 am . We attend peacefully and orderly. Remember our presence is powerful they see us and we see

them.

- For those not on Facebook here is an update from Craig about the Council Ordinary Meeting.
- **Gympie Regional Council 27th September 2023**
- Thank you to those that could attend Wednesday's meeting. Although we didn't have the numbers that we usually have to fill the public gallery, we still made a presence. Hopefully we build the numbers back up for next month.

As we have been saying since attending the meetings of the corporate council since January, we have noticed the way councillors have changed their behaviour to try and demonstrate they have the ratepayers in mind when discussing council items on the agenda, they think the public like to hear how great a job they are doing for the people.

Item 6.1 – 2023 Update of Corporate Plan 2022-2027

Discussion on the corporate plan which is identified within the document by the Mayor that the Corporate Plan 2023-2027 is the most important key strategic planning tool your council has developed because it defines their vision of the future of the Gympie region, but the sole most discussed point was whether the word "Safety" should be included under the values section within the "Accountability" value.

The Corporate Plan provides a roadmap for council to deliver on the approved vision, key priorities, and the short, medium, and long-term goals for the region according to the CEO, but the most discussed point was whether council should focus on including safety into the values.

This is a document that includes council's framework, its strategic plan that is vital to ensure this council is effectively responding to the immediate and emerging needs of the community, but having the word safety included in the values section was a priority with the council meeting.

This corporate plan is under the direct input and control of the Qld government. The Gympie Regional Council is mandated to develop the corporate plan within the requirements of the Qld government Regulation 2012 which includes the state governments 30 year plan and planning scheme requirements. Gympie's direction for the future is not led by the people of Gympie as the

people have absolutely no say or input into it, as it is developed by the elected councillors, with support from council staff with no involvement of the people, however a strategic plan that will control the future development and community gives no ability for the people to have a say as its sole direction comes from Brisbane.

Item 6.2 - Procurement Panel Report

This report provides a summary of the Panel's activities including items endorsed by the Panel for procurement that exceed the financial delegation of the Chief Executive Officer. Council received tender documents submitted from Hastings Deering and GCM Enviro in response to the request for tender to Supply and Delivery of One (1) Landfill Compactor Plant.

Questions were asked by mayor as to the value of purchasing the plant recommended by the procurement team as there were a number of unanswered questions and requested the mayor recommended to delegate authority to the CEO to investigate the implementation to purchase the most appropriate machine including the servicing of the equipment.

The mayor noted that the lighter 38000kg machine may cost ratepayers in airspace for compaction rate as to a 45000kg machine. The estimated cost for the plant purchase is \$1.167M.

Item 6.3 - August 2023 Finance Report

For such an important item of the agenda you would think that a very detailed report summary would be highly discussed and reviewed, but this month's financial report was tabled with little to no scrutiny by mayor or councillors. Little to no conversation was held on the total cash on hand at the end of August 2023 being \$103.1m and of these funds, \$100.8m was invested with the Queensland Treasury Corporation. This coincides with an increase in revenue from the rates increase and the higher than forecast cash balance has resulted in increased interest and investment revenue received to date. The overall actual year to date performance to 31 August 2023 is a surplus of \$47.6m. Questions were not asked by those that are there to represent the people on why there was a rates increase when there is over \$100m in cash reserves and an overall operating surplus of over \$47m.

The report included notification there is a 62% decrease in community equity caused by the removal of the rail assets to the ratepayers. Not only has the Rattler deal cost ratepayers a suggested \$42m - \$48m, now assets owned by the people are being handed over to the Rattler Corporation for free.

This is nothing more than a scam that is leaving families and the community in despair. This council does not see the fact they are a money making business that is doing its job for the corporation to make a profit and not acting on behalf of the people's best interests.

Item 6.4 – 2023-24 Budget Amendment

The report included the intention for the carry forward budgets to be absorbed into the 2023-24 capital program and for a corresponding amount of the 2023-24 capital program be held over to the 2024-25 financial year. The individual projects that are identified as part of the \$3.45m to be held over until 2024-25 capital program will be reported as part of the next budget review, which will to be presented to Council at the October General Meeting. The proposed capital program for 2023-24 totals is maintained at \$111.96m, so the question needs to be asked, “where does the rest of the rates, fees and charges income go”?

7.1 Community Sustainability Directorate Update

The Operational Statistics for the period June – August 2023 was attached to the report identifying key activities for the period including:

- Rates peak period (rates issue date 4 August 2023) The percentage of outstanding rates at 31 August 2023 was 60.99% compared to 62.97% for the same period in the prior financial year.
- Quarterly Councillor Reports provided to all Councillors

How many ratepayers receive a monthly report or update from their councillor on what the council is doing to manage the people's money and assets?

Of particular interest in the report was the update on Gympie Saleyards. The Saleyards has facilitated over \$11M in gross sales during the June to August 2023 period. The low-per-kilogram-prices are expected to continue until the markets clear stock flooded by the USA and Brazil, and grazing conditions improve. The saleyards are an important element withing our farming

community and businesses.

In 2022/2023 the delivery of all council grants and funding provided to the community was brought into one program administered by the Community Development Team. This included new categories for events and recovery as well as environment grants that were previously administered separately to the Community Grants Program. External funding was sourced by the Community Development Team to provide an additional \$210,000 in grant funding to the community in response to COVID-19 and disaster recovery.

Cr Devereaux asked if council had thought about holding grant writing courses and could they be made available to the grant applicants? The council officer advised that if council writes the grant application it can carry liability.

The CEO advised that council employs a grants officer who assists applicants with the application process. The council officer advised they are compelled to follow the competitive neutrality legislation, as council has the ability to charge low fees where there is no public service being provided, however there may be conflict if such a service is available.

The report also includes ASF biosecurity officer training where Council biosecurity officers are undertaking **African Swine Fever (ASF)** prevention and early detection training. This training is designed to help participants understand what they can do to protect our agricultural industries and communities from ASF. The course uses images, videos and interactive scenario-based activities to provide a detailed and engaging picture of the potential impacts of ASF, how to prevent its introduction and establishment, and how to recognise and report the signs of ASF to ensure early detection, if the disease does make through Australia's defences. They are trying everything to normalise the fear program into the community.

7.2 Grant Funding Recommendation - Community Halls Insurance Category

The Community Halls Insurance category for of Council's Community Grants Program has a maximum grant amount of \$5,000 for independently owned halls and is part of the Rolling Round.

The maximum grant amount is \$1,500 (Council owned /trustee halls) \$5,000

(independently owned halls) where No co-contribution from the applicant is required. Council approved the grant application from Theebine Memorial Recreational Centre Inc for an amount of \$5,000, being for a Community Halls Insurance Category grant. The total cost to the Theebine Memorial Hall for insurance was \$15,000.

7.3 Review of Gympie Regional Council's Infrastructure Charges Resolution

With the exception of Kilkivan and Goomeri the resolution approved in the July meeting to make an amendment to clause 1.3 Section 113 of the Planning Act 2016, resulted in new rates applicable to development in the Region being equivalent to the maximum amounts prescribed by the State in the Planning Regulation. Note there is an ability to council to decide the percentage rate of increase recommended by the Qld government but this council has decided to increase the rate to the maximum amount. This is about **revenue raising** and controlling the people and nothing more.

This is clearly demonstrated by the revised adopted charge for **Material Change of Use for Tourist Park fee** of \$10,956.25 for each group of 2 or less camp sites and \$15, 338.75 for each group of 3 or more camp sites.

The definition of camp site states: “**Camp site**” means a space for a single Recreational vehicle or Caravan or Camper Trailer, or an area of no more than 60m² for a group of people camping together with no more than 3 tents. Where a camping group comprises of more than 1 Recreational Vehicle or Caravan or Camper Trailer, or more then 3 tents, this will constitute multiple ‘camping sites’.

Confusion has arisen with the interpretation of “3 (‘or more’, to be removed) camp sites” (referred to in Column 3 and 4 of the table on pg 45 of 174) when the definition of ‘Camp Site’ itself references “a group of people camping together with no more than 3 tents” and also an assertion that the rate for 3 camp sites is the maximum council can charge. The intention of the Resolution was to charge per group of tents. The Planning Regulation (extract below) prescribes a maximum rate based on each group of three (3) sites. Although, no definition of ‘site’ is provided. Council adopted the changes so a larger amount for fees and charges could be levied against the applicant.

Cr Devereaux stated that you usually get a discount with more. The council officer responded saying that council gets more money back towards infrastructure charges?? The council officer also stated that no feedback had been received and was surprised how easy the fees and charges had been accepted with some large amounts of money being paid recently.

7.4 Contract Variations Eastern Cell Construction Bonnick Road Landfill

The council officer stated that variations were always expected and that they were factored into the budget. The mayor went on for quite awhile trying to sell to the public gallery that the council officers had done a great job and they had saved ratepayers millions of dollars in transport costs. There was no evidence to support this claim.

Cr Devereaux asked if this was going to affect the budget as a quick calculation by him was that a 30% variation cost was worth approximately \$1m. Included in the variation is the decision by council staff to purchase another permanent weighbridge to be installed at the Eastern Cell at Bonnick Rd.

8.1 Flood Hazard Area Update for the Building Regulation 2021

In late 2019, Council commenced a major exercise to improve flood information for the Region. The new information addresses shortcomings in the existing flood information for the Gympie Region by:

- applying current rainfall data and computerised modelling techniques and more recent and accurate terrain data for rainfall prediction and flood modelling.
- predicting a range of smaller and larger flood events, not just the 1-in-100-year event.
- providing flood velocities and hazard mapping for disaster preparedness and management, building design and planning approvals, and infrastructure planning and design.
- assessing the possible impacts of climate change.
- covering a number of areas where there has been little or no flood information previously.

The report states council is now using a new system required to be followed from the Qld government. The **Annual Exceedance Probability (AEP)** refers to the probability of a flood event occurring in any year. The probability is expressed as a percentage and is determined by undertaking flood modelling in accordance with industry standards and best practice.

A flood event with a 1% AEP is a flood that is calculated to have a 1% chance of occurring in any one year. It is also known as the 1-in-100-year Average Recurrence Interval (ARI) or Q100 event. Currently, it is the flood event used as:

- the “adopted flood level” in Council’s Planning Scheme
- the “defined flood level” under the Building Regulation 2021. It should be noted that a 1% AEP flood will not necessarily occur only once every 100 years or that it will occur in every 100-year period.

This new modelling being forced upon the people of Qld by the state government will now include previously unaffected residents into this model. This sounds like a perfect SMART city model as when Cr Smerdon asked if this was based on future climate change scenarios set down by the Qld government?

The council officer agreed that the new modelling is a legislative requirement set down for all local governments of Qld.

Cr Stewart stated that this has been predicted 150 years ago. (Is that fact checked?) He said we have to rely on the “Science”. Is that the same as follow the money.

Cr Smerdon asked would this modelling going to impact insurances on the affected properties that were previously excluded from the flood plan? The council officer responded that he had no ability to respond for insurers. The same council officer stated that the forecast is to a future climate scenario still being a 1-100 year model, but new information and modelling will change what that modelling looks like.

The following is an excerpt from the agenda that tells the story on how this modelling is being adopted by council.

Climate Change

One anticipated impact of climate change is increased rainfall intensity which is likely to result in increased flood levels. All flood studies include both:

- a “current climate” 1% AEP flood event (which does not include a specific allowance for climate change), and*
- a “future climate” 1% AEP event which allows for climate change to the year 2100.*

The State Government, via the State Planning Policy 2017, requires that flood hazard areas in Local Government planning schemes must “align with climate change factors for increased rainfall intensity in the Australia Rainfall and Runoff (AR&R) projections”.

The latest version of AR&R advises that two climate change scenarios (called Representative Concentration Pathways, or RCPs) should be tested when performing flood modelling. These are RCP4.5 which is a mid-range scenario, and RCP8.5 which is sometimes called the worst case scenario. AR&R provides increased rainfall intensities which are predicted to occur under each of the RCPs. Both scenarios have been tested in the Mary River flood modelling.

It is recommended that RCP4.5 be applied for climate change in Council's flood modelling for the purposes of the building regulation. The inclusion of the RCP4.5 climate change factor provides a future climate 1% AEP flood, projected to the year 2100.

Comparison of New Flood Information with Previous Information for 1% AEP Floods

The newly modelled current climate 1% AEP flood heights differ from previous adopted 1% AEP flood heights for several reasons.

Flood modelling has been completed for some areas which had no previous detailed flood information. The Queensland Floodplain Assessment Overlay (QFAO) is statewide mapping produced by the Queensland Government to identify potential flood hazard areas in the absence of better, more refined flood modelling. The QFAO does not provide 1% AEP flood heights and, in many locations, does not relate well to ground contours. Some of Council's new flood modelling covers areas for which the QFAO was previously the only

information available.

It is recommended that the new future climate 1% AEP flood information be adopted as of 01 January 2024 to give property developers, landowners, home builders, building designers and certifiers sufficient time to consider and apply the new information. (Section 37 of the Building Act also provides transition arrangements for building planning / applications / works which are in progress when a building assessment provision is amended.)

The primary source of flood information for the community will be Council's on-line mapping system (accessible through the website) which will allow access to:

- the flood hazard area as defined by the Building Regulation.*
- the 1% flood extent mapping (both current climate and future climate) via the on-line mapping system.*

*The report states the new information has been peer reviewed by climate change experts we presume, and is available to any interested party via Council's website. This is a Qld government direction this council is just complying with to meet its UN targets under the State Planning Policy, Council is **obliged** to consider for climate change in new flood hazard mapping. A council resolution is required to designate the new flood hazard area and apply the new flood heights for future building works. Council is obligated to ensure they operate in the best interests of the people as well and using predictive programming too build estimates on more than a 1-100 year flood to take back land on behalf of the state government is not working in the best interests of the people.*

One only has to go to the Qld government Climate Change page and see the WEF and UN agenda being set upon the people of Qld without our consent. <https://www.stateoftheenvironment.des.qld.gov.au/climate-change>

The report recommendations were passed by vote and will now be used by council to decide where people can live and build and where they can't.

8.2 Returned & Services League of Australia (Queensland Branch) Gympie Sub-Branch Inc. - Proposed lease 39 Monkland Street, Gympie

The Returned & Services League of Australia (Queensland Branch) Gympie

Sub-Branch Inc. (the Club) has approached Council with a proposal to enter into a long-term lease (ten years with a ten year option) over the building (previously known as the Telstra Shop) at 39 Monkland Street, Gympie. The building (previously occupied by Gympie Medical Transport and Creative Arts Gympie Region) is currently vacant and uninhabitable due to the flooding events of 2022 and was never professionally remediated.

The Club has also advised that their Board may also consider the purchase of the site depending on the sale price with future flood liabilities to Council may be better mitigated by a sale rather than a lease, but the RSL decided their best option would be to lease the building.

The Club was looking for a long-term lease (ten years plus ten-year option) as a cost benefit for the funds they are investing into this project. The Club is not likely to consider a lease less than five years for this reason.

Following lengthy discussion on for and against the lease which raised the ire of the mayor stating that it would be a recommendation to move the discussion to a workshop, Cr's Milne and Devereaux both challenged the reason to take it to workshop as it required a reason to be tabled. The mayor stated there had already been breaches of the details from the previous workshop to the public today where there are people out in the community that don't operate in the best interests of the council.

I wonder what he is concerned about. The public actually hearing the truth and not the watered down version the Punch and Judy show that we see monthly.

Councillors voted on offering a 3 year lease to the RSL.

<https://www.gympie.qld.gov.au/downloads/file/4707/2023-09-27-ordinary-agenda>

- **The Peoples Council** and **My Place Australia** is a movement across Australia, for the people by the people. Our goal is the same. **Without change nothing will change.** We are all in this together and being joined with this movement across Australia only makes us more powerful as the people for the people and being supported nationwide with proven and tested methods will get us there. Why reinvent wheel?
- Dick Yardley has kindly provided the documents from his presentation from the meeting. Please see the tabs below and click on each document. Thank

you Craig for passing them on, and thank you Dick for your kind generosity

Thank you everyone I appreciate your time in reading the newsletter my heart and love has gone into the newsletter for us all and I hope you enjoy it

Thank you Craig for getting the minutes and agenda to me

Thank you Teenah for doing the minutes and thank you to everyone who contributes to the building of our community

Thank you to Graham who is kindly providing a tech point in every newsletter

Thank you to Korrinne who is kindly providing a Garden tip for each newsletter

Thank you Hugh to providing a health tip for each newsletter

I encourage everyone to keep sending me photo's and a little comment to include in our segment 'Out and about in the community' that I can include in the newsletter. Please send to claggathering@gmail.com

Thank you and see you at the meeting

Cheers

Beck

Out and About with our Community

A beautiful store out at Pie Creek supported by Julie-Ann, Coleen and local farmers

Make sure you check it out every Saturday

**If you have any photos of what you are doing out and about in the community
please send them to claggathering@gmail.com**

It could be what your doing in your garden or community projects happening in our
local areas that you have been to and would like to share

Thank you

My Place Gympie Food Source

Organic Produce

We have the privilege of ordering some beautiful produce from Brendan a local organic farmer in Goomboorian at wholesale prices and we have been placing orders fortnightly to coincide with the meeting on the Sunday

All orders taken fortnightly and close on Thursday at 4.30 pm

Reminders will be posted on Facebook or Telegram

The next order will be placed on the 12th of October

Please text me on 0466251123 if you'd like to order and get the latest updated availability of produce.

As the season changes availability of produce changes

This week we had available

Sweet potato \$3.50/kg
Lebanese Cucumber \$6/kg
Zucchini \$6/kg
Green Beans \$10/kg
Cos lettuce \$3 each
Snow pea \$20/kg
Ginger \$15/kg
Cherry tomato \$3.50/punnet
Beetroot bunch \$3
Broccoli \$5/kg
Chard bunch \$3
Red cabbage \$3
Green cabbage \$3
Cauliflower \$4

I can testify that this is amazingly fresh produce that last the 2 weeks

Brendan is a winter producer and will not have produce available over summer.

**So please let us know of any producers that will have a summer crop
Thank you**

Signature Sourdough

Organic Sourdough and Spelt Bread

Sourdough sourced straight from the supplier James with wholesale prices as long as we have a minimum order of 10 loaves for our group

Thank you to everyone who supports our local business and our community

**Reminders will be posted on Facebook or Telegram
If your not on either please text (0466251123) me your order by the 10th of
October by 4.30 pm and I will reply with payment options**

Available to Order

Plain white sourdough \$8.00

Spiced fruit \$8.50

Toasted sesame \$8.50

Spelt and hemp seed \$8.50

Activated charcoal \$8.50

Olive and herbs \$8.50

Thank you

We are endeavouring to add more local farmers and producers to our food source list.

If you would like to recommend a farmer, a producer of goodies please email us

Thank you

Grahams Tech talk

Hi again folks,

This last two weeks has seen a fair bit of work going into our new website at <https://www.myplacegympie.org> . We have a few folks who have registered for a membership which is encouraging. So what is now available for you and how do you get yourself on there?

Without a membership, and thus for public consumption, there is: an event calendar (which currently only shows the markets and our gatherings), all the council meeting reports from Craig, and by the time you read this there should be all the archives of this newsletter. Other than the events, you will find the others under the 'publications' menu; and are available to download as PDF files, or view them on the page via a

'read more' button.

Once you have a free membership, you will also see PDF publications of the minutes of our gatherings, and some other categories which have a couple of samples I placed there. You will also see a new menu item called 'Forum'. This is totally private to our members.

The forum area is where you can freely discuss a range of topics in the following sections: General - Law / Lore - Technology - Community - Health & Healing - Feeding Ourselves. Although there are not many posts there yet, I would encourage you to join up and start putting information into this area of the site. You will find some information and links to these sections on the 'Membership' page. For those of you that are unfamiliar with using an online 'forum' (otherwise known as 'bulletin board'), in the 'General' section you will find a forum called 'New Users - Website Help'. I will be posting help topics there and answering your questions. To ask a question, go to that forum and create a new topic (there is a button for that) with a summary of your question in the 'Subject' box. This will build up a knowledge bank for new users in the future.

Looking forward to connecting with you all through our new platform.

Hooroo, Graham

Hugh's Health Support

Our birthright is good health and harmonious ways to manage our affairs. Which have morphed into medicine and law and have been taken from us.

My contribution to My Place Gympie newsletters is about health and the main message is that

- Health and healing need a foundation under them
- It's not expensive or complex to make major health changes
- It's not hard to get what's needed because so many people are doing it now

Health problems are caused by either faulty structure or disordered function or both. And that's because of deficiencies, excesses (toxicities) and the resulting imbalances.

We can put a useful foundation under these if we were well nourished with healthy fats and some key minerals. We want to support digestion, good liver/gallbladder function, balanced thyroid/adrenal function. A good sign things are running right is to have control of body fat percentage and the health issues

that prevent that are a good place to start. A deeper insight comes from how the autonomic nervous system is balanced.

We need to know how these things work and I'll offer ideas in this newsletter.

The strongest message I can write here today is that if your well hydrated and eating a nice amount of healthy animal fat then you should be doing well.

**See you next newsletter,
Hugh Wallace Naturopath**

Korrinne's Gardening Tips

Spring has started, we are packing away the winter woollies and our soil is warming up ready for our spring planting.

Here are 20 spring planting crop suggestions which you could consider to move you away from the unhealthy, chemical laden produce from the supermarkets to feeding your family with nutritious tasty food which you have lovingly produced yourself. Nothing better

But don't forget you can purchase organic produce at wholesale prices, whilst waiting for your crops to grow, direct from a wonderful farmer who has been supplying us through Food Source each fortnight.

Space does not allow for specific growing information for each crop so please put any questions in the Gardening, Info and Advice chat and I'll answer your questions there

**Thank you
Happy gardening**

Lets talk Weeds

Cobblers Peg

This poor weed has the botanical name Bidens pilosa

Beside that point and lets not hold that against the amazing Cobblers Pegs

I have pulled this interesting short article from the WWW

Enjoy

"This amazing "weed" which is one of the world's greatest natural digestive tract healers and lymphatic and anti-allergy remedies. But I will refer to it by Cobblers Peg.

People with painful ulcers, who felt they would suffer for life or need to have major surgery, have taken our Cobblers Pegs tea_or tincture and found that, within 6 months, their ulcer was completely healed.

Quote - "I have also been impressed with the number of clients taking Cobblers Pegs who told me that their allergies and sensitivity have greatly improved".

This is obviously related to the potent effect Cobblers Pegs have on the lymphatic system, cleansing the body - especially the liver and kidneys - which reduces toxicity

and consequently sensitivity to toxins - a major cause of allergies.

Current research is beginning to identify some extraordinary healing properties such as the ability to suppress the growth of isolated adult T-cell leukaemia cells.

Cobbers Peg has also been used traditionally to treat other conditions including wounds, flu, colds, fever, neuralgia, smallpox, snake bite, pain, anaemia, rectal prolapse, hepatitis, jaundice, and colic.

Research on this herb first began to substantiate its traditional uses but it was discovered that it has the potential to treat the early stages of malaria, inflammation, diabetes, hypertension, leukaemia, cancer, and allergies; it also has antimicrobial action"

Reference <https://middlepath.com.au>

A great short youtube video to watch <https://www.youtube.com/watch?app=desktop&v=KhixR4oZEvs>

I think we all have this weed in our back yard and in our paddocks that attach themselves to our pants. Why not pick them use them as they were intended for, our good health and the prevention of bad.

**Thank you
And enjoy this wonderful weed of Gods creation for us
Beck**

**What's Happening
at
My Place**

Up Coming Presenters

Sunday the 1st of October

We have another presenter for the
Wayne Osborne

A word from Wayne - I am the front for a group of doctors, scientists and pathologists who know first hand what's in the covid and flu jabs, so they have developed a protocol to combat all aspects of the jabs and shedding. It is regarded by many experts as by far the best Detox / Rebuild program in the world.

I will be presenting each medicine and supplement individually and how the program works. This is a genuine life saver.

If you have anyone in mind that would be interested in presenting at our meeting please contact them and let us know
Thank you

Common Law Education

Craig has a wealth of information that he is happy to share with others helping us move forward. Don't miss out on the meeting on Sunday. Craig is also helping the community understand the Affidavit process and had the first zoom meeting on Wednesday night. If your interested to join please see Craig.

We as the People

Please think about something you would like to present to the community in regards to

- Self-sufficient
- Gardening tips
- Going off grid
- Growing food medicine etc
- preserving
- IT
- the list is endless

We want to encourage our community to come forth with their knowledge and skills to share with the community
Thank you

Affidavit

- Following on from Alex's presentation with the Affidavit. Craig has be holding regular Zoom meetings to help everyone navigate the affidavit. Thank you so much Craig.
- If you would like to join the zoom please email us with your request and a link will be sent out prior to the Wednesday.
- If you missed Alex's presentation at the shed you can check out his Youtube Channel (see below) or the video that was posted on My Place Gympie, just so your up to speed on the information.
- You can go to Alex's Youtube Channel https://youtu.be/_d8dg4QQK3A to learn more. The titles of the video is "Who killed Mary Jane part 1"
- Also if you are unable to make the Wednesday night zoom please follow this link <https://youtu.be/ObP43y3gvpU> to Alex explaining the process.
- Craig's zoom meetings are posted on telegram click on the tab further below to a link to join the telegram group. Thank you

Latest Details

Next Meeting Details

Date: October the 1st 2023

Time: 1 pm - 3 pm

Vacate: 4 pm

Where: The Shed, 735 Mary Valley Road, Long Flat

Bring a chair. Clothing to suit the weather. Come earlier, to grab a cuppa and chat with friends. We welcome all new members. We meet every second Sunday.

Tea and coffee facilities are available from start to finish at all of our events.

Please wash and dry your cup after use and place back. Thank you

Bring a plate to share if you'd like. Help yourself at ANY time. The focus is on, less rules and allowing more of an organic process to to unfold.

Meeting Minutes Available here

Harvest Table

Our HARVEST tables are alive and well.

Thank you to everyone for contributing to the Harvest table its magnificent to see.

Items your welcome to bring are seeds, potted plants, plant cuttings, flowers, fruit and vegetables, homemade goods, dried goods, empty pots and much more you can even bring your secondhand goods to give away.

The harvest table is there for our community and provided by our community with nothing expected in return.

Please remember that what you bring if not taken needs to be collected by you and taken home with you.

Please so not leave goods in the shed.

If you wish to ask for a donation to your homemade or grown goodies then please bring your own table and a separate donation tub.

Your welcome to sell your goodies but please bring your own table and money jar and man your table

Gympie Peoples Council

The Gympie Peoples council is monumental across Australia we have joined the movement to take back control for the people.

If you would like to receive emails from The Gympie Peoples Council and would like to become a member please send an email with your details to the below email address - you will be sent communication with the latest news, the agenda and the minutes of the previous meeting.

We hope to see more and more like minded come to the meetings.
